

Installed in your stack. Built to be trusted.

A custom build for ABWAB & More: finish the website you are walking, move it onto your domain, and install an inbound conversion workflow so every quote gets worked. Standard delivery is a 30-day sprint.

\$10,000

30-day sprint. Website plus inbound conversion. Client-owned. Optional 14-day sprint +\$2,500.

ESSENCE

Lead with the result. Prove it with the system.

SalesGency installs AI revenue workflows inside your existing stack, so every lead gets worked, every conversation becomes usable data, and every next step moves forward. In partnership with Unleash Your Sales Greatness.

1. Outcome

More inbound quotes get worked. Less revenue work is lost to missed calls, handoffs and incomplete briefs.

2. Mechanism

We finish the site and install an inbound conversion workflow across web, CRM, daily reports and first reply.

3. Proof

You are already on the mockup. This is not a generic demo — it is the catalog, live, waiting to be transferred.

PREPARED FOR

ABWAB & More

Doors, kitchens, dressing rooms. This live mockup is the sample of work you would be paying to finish, host on your domain, and own.

PREPARED BY

SalesGency.

AI revenue workflows for modern GTM teams. A d/b/a of Diamitani Industries, in partnership with Unleash Your Sales Greatness.

hello@salesgency.com · salesgency.com

PRESENTERS

Who is in the room.

Patrick Diamitani

SalesGency

GTM AI and automation. Delivery owner for the site, CRM wiring, and launch.

Gerald Jean-Baptiste

Unleash Your Sales Greatness

Sales process and inbound motion. Partner on how quotes get worked once they land.

CUSTOM SCOPE · WEBSITE

Finish the catalog. Transfer it to you.

\$7,000 to continue this build through launch — three design revisions, additional content, two to three meetings, and transfer to your domain and backend.

01**Continue this mockup**

The live site is the starting point. We finish collections, product pages, atelier, about, and quote — then take it to production.

02**Three design revisions**

Kickoff, content, and pre-launch. Each is a structured review. The catalog language stays the source of truth.

03**Additional content**

Photography, finishes, kitchen and dressing-room stories, and copy you supply — connected so this is a working catalog, not a sample.

04**Your domain and backend**

Launch on your domain. Transfer hosting, environment, and the repository. The site and the records stay yours.

05**Two to three meetings**

Diagnose, build review, launch. Short sessions with the mockup on the table so nothing is abstract.

ENGINE 01 · INBOUND CONVERSION

Work every inbound. Write it back to your CRM.

\$3,000 to install a quote-and-lead workflow in your stack: the on-site concierge, CRM wiring, daily reports, and an auto-responder. Your tools are not the problem. The gaps between them are.

Inbound conversion

Qualify, enrich and route every quote and inbound lead to the right owner, with the right next action.

Installed in your CRM

Leads, quote briefs and conversation context written into your system. We do not replace your stack.

Daily reports

A morning digest: new inquiries, estimates issued, unanswered threads, and what needs a person next.

Auto-responder

Every inbound gets a timely first reply so no architect or homeowner waits on a missed call.

MODEL ACCESS

The concierge runs on your models. We help you set that up.

ABWAB needs its own model access for the quote concierge — your keys, your vendor, your billing. SalesGency does not host or resell the model. We help you choose access, put credentials in your environment, and wire the concierge into the site and CRM so it is installed in your stack.

INVESTMENT

One engagement. 30-day sprint. \$10,000.

Website

\$7,000

Continue the mockup, 3 design revisions, additional content, 2–3 meetings, domain and backend transfer

Inbound conversion workflow

\$3,000

Quotes, inbound leads, CRM wiring, daily reports, auto-responder — installed in your stack, on your models

30-day sprint

Included

Standard delivery window. Included.

Total due from ABWAB & More

\$10,000

OPTIONAL

14-day sprint

+\$2,500

Compress the same scope into two weeks. Additional fee on top of the \$10,000 engagement.

With the 14-day option the total is \$12,500.

Payment is 50% at signed SOW and 50% on delivery. Three design revisions are included. Client data, credentials, and model access stay the client's. No monthly platform fee in this figure — hosting sits on your account after transfer. Model usage is billed by your provider, not by SalesGency.

HOW IT WORKS

Built around your process, not a generic demo.

Standard path is 30 days from signed SOW to launch. The 14-day option is the same three steps, compressed.

STEP 1

Diagnose

Kickoff: domain, CRM, model access, content, first design revision. Map handoffs and the work that is slow or invisible.

STEP 2

Build

Connect content, second revision, inbound workflow in your CRM on your models. Guardrails and real quote scenarios.

STEP 3

Launch

Third revision, transfer to your domain, auto-responder live, ownership documented.

NEXT STEP

Stop losing inbound quotes to a missed call.

If this mockup is the house you want, ABWAB & More pays \$10,000 for a 30-day sprint to finish it, transfer it, and install the inbound workflow. Walk the catalog. Then tell us to proceed.
